

Blues Is A Woman

Performed by: T-Bone Walker

Blues is a woman, that woman I call my own
Blues is a woman, that woman I call my own
I'm happy when she's near me
Sad when she leaves me all alone

Blues is a feeling that pains your very heart
Blues is a feeling that pains your very heart
Don't feel it when she's with you
But how it aches when you're apart

(Instrumental – 12 bars)

Blues is song I sing both night and day
Blues is song I sing both night and day
When you've got a woman
It makes you sing the blues that way
